a Little Sunshing Girl Kills Herself.

Had Been the Light of the Household.

Her Purpose to Those Who. Loved Her, Plotted Death.

CAN PSYCHOLOGY EXPLAIN THIS?

Aunt with Whom She Lived in Brooklyn.

Hattle Harper, a healthy, merry-hearted, good-looking girl of fifteen years, whose days had been spent at home, who had the way she came to select gas as the at New Riegel, ten miles from here, senever been freely trusted with books, whose every acquaintance had been carefully scrutinized by a vigilant uncle and aunt with whom she lived—a very child-ling girl who knew nothing of the world world in girl who knew nothing of the world world in the second of the world world in the basement of the great Wesieyan Unitation of the great Wesieyan U hours, and during that time she had care.

her, but finally amased that the story had made such an impression upon the girl, said:

Moes three times, one of the bullets taking had made such an impression upon the girl, said:

Moes, spoke to Moes and he turned and

The only explanation of it all lay in this note that had been left:

"Taok gas. Good-y, please send my school books back and my Sunday school books ta class numebr 35."

Harper, having no children of als own, adopted her. To say that they became warmly attached to her conveys absolutely no idea of the feeling that existed between Mr. and Mrs. Harper and their adopted child. From the day she came into their

household until that moment when they left her alone at home never to hear her voice again, they do not remember a single instance of a tear, a cros word, a pout or SCHOOL BOOKS BACK II instance of a tear, a cross word, a pout or any other manifestation of childish peevishness. Her temperament was tropical in its ness. Her temperament was tropical in its perennial sunshine. She sang at her work. She laughed when she started for school.

Her uncle, who is a man of considerable shrewdness, was frequently vxexed that the girl showed no indications of ever becoming serious. Fearing that as she grow older her open disposition would be anything but blessing to her, he exercised great care in Was but Fifteen Years Old and the many little things that he knew would

Hattic attended the public school in South Fourth street, Brooklyn, and was a member of the Sunday-school of the South With No Warning of Her Purpose to she was not at school her aunt Invariably His Besiegers Dared Not Shoot for The Governor Believed to Have at He Was Imprisoned Last Monday kept her at home. She had a great many young friends, who came to the house to play with her, whom her aunt had satisfied berself were desirable companions for her niece. She was never allowed to read a book of fiction, and, with the exception of occasional newspaper which her uncl The Child's Name Was Hattie Harper and She Was the Idol of the Uncle and fined to her school books. Her spare time was devoted to odds and ends of house work, although of late she had taken quite an interest in drawing.
